Spam

In this Policy, "Spam" includes one or more unsolicited commercial electronic messages to which the Spam Act 2003 applies, and derivations of the word "Spam" have corresponding meanings.

Codes of Practice

The Internet Industry Codes of Practice registered with the Australian Communications and Media Authority ("ACMA") set out how internet service providers, such as **Dreamtilt**, and email service providers must address the sources of Spam within their own networks.

They also require internet service providers and email service providers to give end-users information about how to deal with Spam, and informed choice about their filtering options.

Reducing Spam

You can reduce the amount of Spam you receive if you:

- do not open emails from dubious sources;
- do not reply to Spam or click on links, including 'unsubscribe' facilities, in Spam;
- do not accept Spam-advertised offers;
- block incoming mail from known Spammers;
- do not post your email address on publicly available sites or directories. If you must do so, look for options, such as tick boxes, that allow you to opt out of receiving further offers or information.;
- do not disclose your personal information to any online organisation unless they agree (in their terms and conditions or privacy policy) not to pass your information on to other parties;
- use separate email addresses for different purposes, such as a personal email address for friends and family and a business email address for work;
- install a Spam filter on your computer to filter or block Spam. We strongly recommend that you install a Spam filter on your computer, even if you receive a Spam filtering service from **Dreamtilt**. More information is on the Australian Government Cyber Security website here - <https://www.cyber.gov.au/protect-yourself/securing-your-email/email-security/secure-your-email>.
- report any Spam you receive to **Dreamtilt** or the ACMA (see "Complaints" below); and
- visit the ACMA website or 'Fight SPAM on the Internet' website for more information on ways to reduce the volume of Spam you receive, including how to:
 - reduce Spam if you operate a website; and
 - avoid becoming an accidental Spammer.

All internet and email service providers are required by the Internet Industry Code of Practice to maintain an "abuse@" email address (or other email address as notified by the service provider) to allow end users to report Spam. If you think you have been sent Spam by a **Dreamtilt** subscriber, you may report it by emailing that service provider at their "abuse@" email address or other email address as notified by the service provider for that purpose.

Loss of legitimate email

Filtering services are an effective means of reducing the amount of Spam you receive. However, they will not eliminate all Spam and there is a risk that legitimate email might occasionally be incorrectly classified as Spam and therefore lost.

Liability

To the extent permitted by law, you hereby indemnify **Dreamtilt** against any losses, costs or expenses (including legal costs) resulting from:

- a. a claim that an email which contains undesirable content has not been quarantined;
- b. a claim that an email which does not contain undesirable content has been quarantined; or

You acknowledge that any email filtering services provided by **Dreamtilt** are not intended for, and are not capable of, filtering out all undesirable content
